An authorized Agent to solicit Subscriptions and Advertisements for this paper, and receive and remit for monies thereon.

Persons residing in this Territory, coming from various portions of the States, often suggest, to the Editor of the Advertiser, that they would like to have a copy of the Advertiser. We always send a specimen copy, and persons receiving, will consider it a satisfaction to become a regular subscriber. Postmasters and others, feeling solicited to make up a club, can retain the usual per cent for their trouble.

**JOB WORK.**  
With recent extensive additions of new Type, Cuts, colored Inks, Bronzes, Cards, &c., made to the Advertiser Office, we claim to be able to turn out Job Work in a manner unsurpassed by any office. The proprietor being a practical printer himself, and having in his employ an accomplished and experienced Fancy Job Printer, is latest improved Card Presses, Blanks, Work in Colors, Bronze Work, &c., will meet with particular attention.

Orders from a distance will be promptly attended to, and warranted to give satisfaction or no pay.

**Territorial Warrants and Nemaha County Orders.**—drawing interest will be taken at par in payment for indebtedness to this Office.

**WAR AGAIN IN KANSAS.**  
It is seriously apprehended that "disturbances" will commence again in a few months in Kansas, between the Free State and Pro-slavery parties.

We had made up our mind that the country, at least for some time, would be free from the Slavery or Kansas agitation; but judging from the "signs of the times," we have reason to believe another war is portending.

This is an unhappy and calamitous condition for our country, and more particularly for the United States. It is a serious and melancholy affair, and if the President has the power, the first manifestation to renew these disturbances by either party in any country, should be immediately and thoroughly put down. If President Pierce had done his duty in time, there would not have been one fourth of the trouble in that Territory, and now if Mr. Buchanan acts with the same tardiness in this matter, we may look for a repetition of analogous troubles.

Kansas and Nebraska stand upon the same foundation, both being organized by the same act, and at the same time. Said "Organic Act" gives each Territory the right to regulate its own domestic affairs without the intervention of Congress; reserving that the inhabitants of States, or Territories, are competent to govern themselves and to know their wants best. We believe this to be a correct and sound principle, if properly and impartially carried out—it may be abused, and we doubt not, but what it has been woefully abused in Kansas. When it becomes necessary to enforce a doctrine, or principle, in a republican land, by the implements of war, we cannot, we will not give our assent to such a doctrine, regardless of the party, or parties promulgating it. Every citizen and voter from every section of the Union, is invited to Kansas and Nebraska, and a voice is promised them by the "Organic Act" in the adoption of domestic laws, and the regulation of all matters pertaining to their interests; and welfare. When a barrier in any shape whatever, is placed against the operation of this object, we are as bitterly and as sentimentally opposed to it, as any one else. So far the principle has worked "like a charm" in Nebraska, and it is to be hoped, by all rational and good citizens, that it may never work otherwise. It is universally admitted, that Nebraska will become a free State; although, our own country is filled by a large number of citizens from slave States, we do not know of one who desires the introduction of the Ethiopian race, bond or free into the Territory. We will continue in peace with one another and the "rest of mankind," form and adopt our State Constitution, with or without slavery as it suits us best. We wish no fanatics from the South, nor from the North—Kansas is a much more congenial land for such Union-destroying "life-eating" monomaniacs. Those who want to follow peaceful avocations and "worship God according to the dictates of conscience" without fear of gun-powder, balls, bomb-shells and bowie knives, will find in Nebraska a warm and cordial welcome. "Come one—come all" offiters sort to Nebraska—the other sort will please pass on to the seat of war in Kansas, for there they may have an opportunity of "falling gallantly" for the sake of this fanatical North or South.

**NEMAH COUNTY.**  
We are persuaded that many of our own citizens do not fully understand or appreciate the important advantages of Nemaha County, they seem to forget that farmers near a navigable stream or out-let have prospered in a more rapid rate than those who live many miles distant from such out-let. The difference in the value of land situated in the two localities is no less striking and self-evident; calling for no argument in excess from us. We confess our inability, honestly to account for some of our citizens locating and taking claims isolated, and far from the river, when within our county, and near navigation desirable and valuable claims can be obtained, at little expense and trouble.

The lines of Nemaha county were changed by the last Legislature; notwithstanding the alteration, we can boast of the best body of land in the Territory, and at the present time we can show a larger number and a better class of farms than any other county in Nebraska.

Proof of this is clear to the unfeigned observation of a trip through the county is sufficient. In another article at some future time we will give the county boundaries of Nemaha and a description in detail of the advantages, improvements, &c., of the whole country.

## "DAILY LINE OF MAIL COACHES FROM BROWNVILLE TO DOUGLAS."

Start not reader, at the caption! It has become "as familiar to us as household words"—was held up high and long as one of the benefits that would eventually accrue to Brownville in the event the Capitol was removed from its present location to Douglas. The following is an extract from a letter written by a resident of Nebraska City, from Omaha, under date Jan. 18th, 1857, during the pendency of the "Capitol Bill," to the North Western Democrat; signed "C. F. H.":

"The place to which the Capitol is to be removed is near Salt Creek immediately West of Nebraska City, at an embayed place Douglas City, about 50 miles from the River. Its location there will give the finishing touch to that rising metropolis. It will pack the country West with dense settlements, who will draw their supplies from Nebraska City, and it will be virtually locating the Capitol at that place."

How do you like it, citizens of Brownville and Nemaha county! Does it look much like running "a Daily Line of Mail Coaches from Brownville to Douglas." It is simply an admission of what every one, acquainted with the facts in the premises, knows. Certainly it would "give the finishing touch to that rising metropolis," and would be nothing else than "virtually locating the Capitol at Nebraska City." Thus you see why the war was such a "deep interest felt in behalf of Brownville and Nemaha County" by our "Sister City" in Ohio—such an interest as to warrant the expenditure of a "Dollar or two," in convincing our people that the "Nemaha Delegation ought to be whipped into the traces or resign."

We do not copy the above, neither do we write, in any spirit of bitterness or complaint toward Nebraska City or her people; but to let the people in this place and County know that it was not the "interest felt in our behalf" that induced our neighbors to labor with such zeal as that manifested during the agitation of the Capitol Bill—it was all *de bono*, so far as being a benefit to our place or county was concerned, and right well they knew it. For their zeal, and untiring energy, we give them credit, and cite to their example in this respect, as one worthy of imitation.

**WILL OUR CITY PROSPER?**  
We ask the question, will our city grow to be a great Metropolis and that too without the least assistance? Did you ever know a case of this kind? There is no point in Nebraska Territory with more providential advantages than the city of Brownville, and all that is required is some aid to cause her to take a stand alongside the best of towns or cities in the West.

But, unless those who boast of their fifty and one hundred "City Lots," do something in the way of improving or sell to persons who are anxious and willing to buy, at fair rates, no one can reasonably expect to see a place of any importance at this point. We speak the sentiments of every sensible man. Gentlemen there are facts—you cannot deny them—and as long as our city property is held by men at home and abroad who will not improve nor sell on reasonable terms to settlers, so long will we remain behind, far behind the progress of other points in the Territory. We will continue to honor our *Gents* with an occasional puff, until you do something—sell out or improve.

**MOVING.**  
Through the medium of our eastern exchanges, and correspondence, we are in receipt of reliable data, that the coming season will be unequalled in the amount of emigrants for the West; that in some instances entire neighborhoods are ready and anxiously waiting to "take up the line of march" for their new homes.

The incentives to a change of residence or emigration are many; every individual emigrant he or she has some peculiarized object in view in leaving the land of their nativity. All agree that the most usual and prominent of these is the hope and desire that with a change of homes their may come a change in "worldly affairs," and instead of dragging out their life long days in want and misery, they may find and enjoy a portion of that independence which is the result of a reasonable share of the "good things of this life." Another desideratum, of no less magnitude, induces thousands to undergo the heart-crushing anguish of a "last and fond adieu" to the "old homestead," "be it ever so humble"; viz: a *restoratio* of health.

A few words of advice for all who have made up their minds to try their fortunes in new countries; and in the first place when arriving at the point for which you started, do not become discouraged or dissatisfied because you are deprived of many little comforts and conveniences, and forced to endure many hardships incident to the settlement of new countries. Prepare your minds to meet with "hard knocks" for a season; and our opinion for it, many who are now victims to disease, *incurable* disease, will find these "knocks" highly efficacious in restoring to health life and vigor. There is no remedy in the whole range of medical discovery ancient or modern equal to the healing and health invigorating virtues of a residence where the system receives daily a few such "knocks."

To all who desire to find homes in a new country possessing a climate without an equal in point of health, and a soil matchless in richness and fertility, we say *come to Nebraska*. If you wish to avoid strife and live in a land where you may exercise the right of speech without fear of molestation or punishment we advise you by all means to "pitch your tent" in Nebraska. We have no disturbances here on the subject of slavery or any other subject; although our population is composed of persons from almost every State in the Union, a perfect good feeling prevails; a Southern and a Northern, join hands, neighbor with each other, worship together, drawing no line of distinction but living and "moving along" as a "band of brothers." This is as it should be; not only in Nebraska but in every State or Territory in the United States.

We again say, if health, wealth, happiness and peace be your object in emigrating to the West, let your "lots be cast" in the healthy and beautiful Territory of Nebraska.

St. Louis and St. Joseph merchants and manufacturers, can find no better advertising medium than the "Advertiser," which has far the largest circulation in the Territory.

## "BREAD CAST UPON THE WATER"—A NEW AGENT.

We have made it a practice, whenever going from home, to fill our pockets with "Advertiser" and prospectuses thereof. Last Summer "this armed and equipped" we spent a number of days out on the prairie—"way West beyond where any body lives"—50 or 60 miles at least from any human habitation, where two Indian trails crossed each other, some body had stuck up a "flag stake." As we rode past, the idea struck us, that we'd establish an agency at this point, knowing that considerable importance has always been attached to "cross-roads." Accordingly we rode back, alighted from our mule, and with pencil, wrote on the margin of an Advertiser, "Take, read and subscribe," and with a stipple from the ragging, tied the paper to the stick. Bidding our new agent "good day," and wishing him success, went on our way. We had quite forgotten the circumstance until a few weeks since, we received two dollars enclosed in a letter from a gentleman residing in the northern part of Iowa, stating that he had been on a "look at the country" through Nebraska last fall, and found a copy of the "Advertiser" "tied to a stake on the prairie" as described, and "being pleased with the paper, and struck with the novelty of the agency, determined to subscribe" and accordingly sent us two dollars. This is a practical demonstration of "casting bread upon the water," &c.

## CHINESE SUGAR CANE.

Just now, every Agricultural paper we peruse, is filled with articles upon this subject. Where it has been tested, it has been found to be valuable for its Saccharine qualities; for stock, both seed and stalks. We copy to-day an article on the planting, cultivating and harvesting of this new plant. Next week we will copy another article on this subject, from Hon. CHAS. MASON, Commissioner of Patents, giving an account of the origin of the Chinese Sugar Cane; its introduction into this country, and accounts of experiments, in various portions of the United States. Some of it was cultivated in this Territory last year, and found to do well. We planted a few seeds of it in our garden last year, which did well, and matured long before frost, some of the stalks attained the enormous height of 16 feet 3 inches. We hope the enterprising Farmers of Nemaha county will test its qualities thoroughly this year. We have a limited supply of seed which we will distribute gratuitously to Farmers of this county, who will experiment thoroughly with it and report the result for the "Advertiser" columns next fall.

**TROTTING MATCH—GOOD TIME.**—The sporting men of this vicinity have had on foot for a few days a trotting match, or race (we are not familiar with the phrases of the turf) against time, viz: a bet of \$50 that a horse, owned by a Farmer of this county Mr. BUCHANAN, would trot, in harness, a mile inside of 4 minutes. The trotting came on on Tuesday last, Time 3 min. 24 sec. Taking every thing into consideration—cold weather—frozen ground and no prepared track—just on the rough prairie sod—the time is called extraordinarily good. The knowing ones think the circumstances were about one minute against the horse, in the distance; in other words that he can with a fair show trot a mile in 2.24. Those more familiar with such sport can form a better opinion than we upon the subject.

The following we copy from *Porter's Spirit of the Times*, as the fastest time ever made—By a running horse was by H. Perit, a mile in 1.42; and the fastest mile made by a pacer, was by Pochontas, in 2.17; and the fastest mile ever made in trotting, was by Flora Temple, in harness, in 2.24.

There has been some unnecessary flitting in the effects of our article two weeks ago, in regard to the petitions sent from this County. We supposed it was generally known to whom we particularly referred, by a train of existing circumstances which are known to those who keep an eye on passing events; and we say here, that we had not in our mind's eye when writing, the gentlemen who were directly our opponent last fall. So far as he and ourselves were concerned, there was nothing serious between us, nor have we known or heard of any thing to the contrary since.

**LOOK OUT FOR THEM—Capt. WHITE,** of the firm of HOBBS & CO., has gone East for a Spring Stock of Goods. Look out for largest stock that ever came up "B. G. Maddy." Get your dimes ready, too, for the "Cash System" will be the motto hereafter.

**BROWNVILLE STONE AND COAL COMPANY.**—We publish in to-day's paper, the "Articles of Incorporation of the Brownville Stone and Coal Company." Such is the estimate placed upon this enterprise by our citizens, who know what can be done by the operations, that the whole amount of the Capital Stock \$50,000 was taken in less than 48 hours after subscription books were opened.

As soon as the weather will permit, the Company will commence business. The first point of operations will be in the Bluffs above this City.

**REMEMBER THE "ASSOCIATE EDITOR."**—Let it ever be remembered in the distribution of "small favors" that the "Associate Editor" expects a share; a town share or shares, or anything in which there is a show to make an honest dollar, and if there should "turn up" anything good for the body or stomach such as wine, cake &c., please pass it round this way.

## ARTICLES OF INCORPORATION OF THE BROWNVILLE STONE AND COAL COMPANY.

That we James W. Coleman and Robert W. Furnas, our heirs and assigns do hereby associate ourselves together as incorporators for the purposes and uses expressed in these articles of incorporation, and do by these presents constitute and declare ourselves a body corporate and politic with succession, under the name and style of the *Brownville Stone and Coal Company*, agreeable to chapter third of the act of the Legislature of Nebraska Territory, entitled "an act for revising, consolidating and preparing a general code for the Territory of Nebraska." Approved, Jan. 25, 1856.

Art. 1. The business of this corporation shall be to quarry stone, and stone coal, at any point or points, within the county of Nemaha, and Territory of Nebraska, and dispose of the same, not conflicting with the rights of others, and under such restrictions as the corporation or Board of Directors may prescribe, and the necessary carrying on of a regular and legitimate business, to buy and possess property of all kinds real and personal and mixed to mortgage, sell, convey and dispose of the same, to contract and be contracted with, to sue and be sued, to defend and be defended against, to plead and be impleaded in all courts and places whatever, in all manner of actions, and may have a common seal and alter the same at pleasure.

Art. 2. The capital stock of said corporation shall be Fifty Thousand Dollars, to be divided into shares of Twenty Five Dollars each, two thousand dollars of which must be subscribed and paid in, or the sum of two thousand dollars, by the payment of five per cent on the amount subscribed before commencing business, and such per cent and at such times thereafter as the Board of Directors may require until the capital stock shall be fully paid in, and the indebtedness or liabilities of the company shall not at any time exceed two thirds the amount of stock paid in.

Art. 3. The place of business of this corporation shall be at the city of Brownville in said Territory.

Art. 4. The stock of said corporation shall be assignable and transferable according to such rules and under such restrictions as the corporation or Board of Directors may prescribe and the Board shall have power at all times to make such By-Laws, rules and regulations as may appear for the well-being of said company, not inconsistent with the laws of this Territory or those of the United States.

Art. 5. That the stockholders of said company shall meet at such time and place as a majority of them may designate and annually thereafter at their office in Brownville, for the purpose of electing a Board of Directors, who shall be stockholders—to conduct the affairs of said corporation, and to continue in office for one year or until their successors are elected, and the aforesaid incorporators shall have power to manage and conduct the affairs of said corporation until the election of Directors, and in the election of said Directors each share then held shall entitle the holder thereof to one vote which may be given in person or by proxy.

Art. 6. It shall be the duty of the Board of Directors to elect annually from their number, a President and Treasurer and appoint or elect a Secretary, and such other officers or agents as the interests of the corporation may require, whose duties may be prescribed by the By-Laws of said corporation.

Art. 7. That in case of vacancy from any cause in any of the officers above named, the Board shall have power to fill such vacancy.

Art. 8. This corporation reserves to itself the right to make such changes in these articles as may be deemed necessary, agreeable to the power vested by section eleven of the aforesaid act.

Art. 9. This corporation shall commence on the second day of March, Eighteen Hundred and fifty seven, (1857) commencing with the filing of these articles with the Recorder of Deeds within and for the county of Nemaha in the Territory of Nebraska, and shall have an existence and continue in full force for a period of fifty years. Signed Brownville, N. T., J. W. COLEMAN, March 2, 1857. Received for record March 2, A. D. 1857, at 30 minutes past 10 o'clock, a. m., and recorded on Book "A" of Nemaha county, N. T., Folio 27. W.
